SpendWise

Smart Money Management Made Simple

Track your spending. Manage your budget. Reach your goals.

Presented by: Abdirahman Yahye Iman

The Problem

Many people struggle to manage their money effectively.

- They do not know where their money goes.
- Tracking daily expenses can be difficult.
- It is easy to overspend and miss savings goals.

SpendWise helps people understand and control their spending.

The Solution

SpendWise is a simple app that helps people manage their money.

- **Track income and daily expenses.**
- **Create and manage a personal budget.**
- **Set savings goals and monitor progress.**
- **Get a clear view of where your money goes.**

How SpendWise Works

1. **Add your income**
2. **Record your expenses**
3. **Set a budget**
4. **Set a savings goal**
5. **Track your progress**

SpendWise gives users a simple way to stay in control of their money.

Target Users

SpendWise is designed for people who want to manage their money better.

- **Students who want to control daily spending.**
- **Young workers who want to create a budget and save money.**
- **Small business owners who want to track income and expenses.**
- **Anyone who wants a simple way to manage personal finances.**

Market Opportunity

Many people use smartphones but still need simple tools to manage their money.

- **Growing use of mobile apps for everyday financial activities.**
- **Increasing interest in budgeting and saving.**
- **Students, workers, and small business owners need easy money-management tools.**
- **SpendWise can serve users who want simple personal finance support.**

Competition

People can already manage money using different apps and simple methods.

- **Mobile banking apps**
- **Budgeting and expense-tracking apps**
- **Spreadsheets and notebooks**

SpendWise focuses on making budgeting, expense tracking, and savings goals simple in one place.

Why SpendWise?

SpendWise makes personal money management simple and easy to understand.

- **Simple: Easy to use for beginners.**
- **All-in-one: Track spending, budgets, and savings in one place.**
- **Clear: Helps users see where their money goes.**
- **Goal-focused: Helps users work toward their savings goals.**

SpendWise helps people make better everyday money decisions.

Business Model

SpendWise can generate income through simple and affordable options.

- **Free version: Basic budgeting and expense tracking.**
- **Premium version: Advanced features for users who want more tools.**
- **Partnerships: Work with businesses and financial service providers.**

The goal is to keep SpendWise affordable while creating sustainable revenue.

Marketing and Growth

We will reach users through simple digital channels.

- **Social media such as TikTok, Facebook, and Instagram.**
- **Student and community groups.**
- **Referral programs that encourage users to invite friends.**
- **Partnerships with schools, businesses, and financial organizations.**

Start with local users, learn from their feedback, and grow to more markets.

Goals and Future Plans

Our goal is to make SpendWise a trusted and easy-to-use money management app.

- **Launch the first version of SpendWise.**
- **Get feedback from early users.**
- **Improve features based on user needs.**
- **Add more tools for budgeting and saving.**
- **Expand to more users and markets.**

Join the SpendWise Journey

SpendWise is built to make managing money simple, clear, and accessible.

We are looking for:

- **Early users to test the idea and give feedback.**
- **Partners to help us reach more users.**
- **Support to develop and grow SpendWise.**

Thank You

SpendWise — Track. Budget. Save.
